NEUROTHERAPY — MEDULLA TREATMENTS 16 medulla treatments

HOW TO COUNT **1 Medulla = 2 rubs.** (30) Medulla = 60 rubs. Count rubs, not the number.

REPEAT Repeat every treatment **3 times**, with a **1 minute pause** in between.

A · CRANIAL NERVE MEDULLA TREATMENTS

MEDULLA	RUBS	NERVE / CHEMICAL · WHAT IT IS USED FOR
(1)	2	**Olfactory —** Loss of smell when the nose is clear.
(2)	4	**Optic · GABA —** Eyes and speech. Stimulates GABA.
(3)	6	**Oculomotor —** Double vision, as in multiple sclerosis.
(4)	8	**Trochlear —** Spleen and mitral valve pain, chest pain, cervical spondylosis, lungs.
(5)	10	**Trigeminal —** Jaw, cheek, teeth and lip problems. Every kind of cough.
(6)	12	**Abducens —** Hunger, thirst, body temperature, pain. Hypothalamus → hormone glands.
(7)	14	**Facial —** Bell's palsy. Trouble closing the eye or smiling.
(8)	16	**Vestibulocochlear —** All ear problems. Serotonin for sleep and deep sadness.
(9)	18	**Glossopharyngeal —** Taste and swallowing. Choking while eating.
(10)	20	**Vagus —** Whole digestive system, lungs, fast heart rate. **Heart: Left Medulla only.**
(11) Left	22	**Accessory (left) —** Frozen shoulder. Cannot lift the shoulder; stiff and painful.
(11) Right	22	**Accessory (right) —** Shoulder dislocation, after a blow or other cause.
(12)	24	**Hypoglossal —** Hippocampus. Fits in sleep or on waking. Intestinal worms.

B · CHEMICAL MEDULLA TREATMENTS

These stimulate body chemicals rather than a cranial nerve

(15)	30	**Acetylcholine —** Stimulates muscles. Breathing that seems to stop at night.
(20)	40	**Dopamine —** Parkinson's. Pneumonia in children. Raised prolactin in women.
(30)	60	**Prostaglandins —** Inflammation, drug side-effects, ulcer, asthma. **Not for heart patients.**

SAFETY — READ BEFORE YOU TREAT

- **Heart patients: (10) Left Medulla only**, never full (10).
- Learn each point from a trained therapist.
- **(30) Medulla is not given to heart patients.**
- Not a replacement for medical care.

HOW TO GIVE THE TREATMENT

- Downward gentle rubbing, on the exact point.
- Slight to moderate pressure. Never hard.
- 1 minute pause between rounds.
- Plenty of water afterwards.
- Watch the technique video first.
